

# PRODUCT TESTING SOLUTIONS

## For Industrial Chemicals

### DEEP SCIENCE. REGULATORY COMPLIANCE.

Building a successful industrial chemical portfolio requires a sophisticated research partner—where cutting-edge science, experience with the regulatory environment and scalable lab capacity makes the difference in helping you meet and exceed your testing goals.

### Gain New Insights.

Apply deep science to build your innovation pipeline or to manage existing products—including the rapid and expert investigation of borderline results and additional testing necessary to provide answers that are critical to your decision making. Obtain specialized solutions for your specific needs:

- ▶ General and genetic toxicology
- ▶ *In vitro* toxicity testing
- ▶ Carcinogenicity testing
- ▶ Acute and long-term developmental and reproductive toxicology (DART)
- ▶ Metabolism studies
- ▶ Analytical support
- ▶ Next-generation toxicology testing

### Achieve Regulatory Compliance.

Gain a reliable GLP, AALAC-accredited research partner with specific experience in industrial chemical applications and regulations:

- ▶ More than 250 industrial chemical studies per year
- ▶ Testing of UVCB materials
  - Biofuels, fatty acid dimers, enzymes, tar acids, fuel additives, plant oils and extracts, colored and scented products
- ▶ Scientists experienced in large-scale, long-term regulated studies:
  - ECHA (REACH) and MET (REACH-ICFC), plus FDA and TSCA (US Toxic Substances Control Act)
  - US FDA, US EPA, UK MHRA, ANSM and COFRAC (France), BfARM (Germany) and CFDA (China)
- ▶ GLP certified since 1986, more than 30 successful GLP inspections in the last 5 years

### Take Advantage of Extensive Lab Space.

Find labs with space to house large studies or rapid study starts—that deliver consistency, quality and expertise every day:

- ▶ State-of-the-art labs with more than 3M ft<sup>2</sup> in Europe, Asia and US sites
- ▶ Studies from simple to complex—capacity for studies with up to 50 compounds

### Leverage Science That Never Sleeps.

Gain a global research partner with deep scientific expertise, experience in regulatory compliance and available lab capacity. Draw on the collective capabilities of 48,000 employees in 60 countries. Together, we can achieve success—on time and on budget.
